Building Strong Foundations

Welcome to Grace & Growth.

At Grace & Growth, we combine adaptive learning technology with personalised support to help every child build strong foundations, grow in confidence, and reach their full potential.

Whether you're looking for adaptive learning support, daily facilitation, or a trusted partner to complement learning at home, in a homeschool setting, or within a school, we're here to support every child's unique learning journey.

Why Choose Grace & Growth?

We believe every child learns differently, which is why our approach is flexible, personalised, and focused on long-term growth.

With Grace & Growth, you'll benefit from:

- Adaptive learning technology that responds to each child's individual needs
 - Personalised learning pathways
 - Progress tracking and meaningful insights
 - Flexible support options for different learning journeys
 - Daily facilitation for families who need additional structure
 - A calm, encouraging environment where children can grow with confidence
-

Who We Support

Grace & Growth is designed for:

- **Homeschooling families** looking for adaptive learning technology and optional daily facilitation.
 - **Parents of children in mainstream schools** wanting additional support to strengthen core skills, reinforce learning, and address learning gaps.
 - **Schools and educational organisations** seeking adaptive learning technology for intervention, remediation, enrichment, and personalised learning.
 - **Tutors and educational support providers** looking to enhance the support they offer through adaptive learning technology and progress monitoring.
-

How We Can Support You

Online Adaptive Learning Support

Access personalised adaptive learning technology that identifies learning gaps, strengthens core skills, and supports every child at their own pace through continuous progress monitoring.

Building Strong Foundations

Our daily facilitation option combines adaptive learning technology with structure, encouragement, and accountability, creating a supportive environment where children can develop confidence and independent learning habits.

Daily Facilitation

For families using an alternative homeschool curriculum who would like daily facilitation in a structured and supportive environment.

Optional Enrichment

Children can also participate in our optional sports and swimming programmes, encouraging confidence, teamwork, physical wellbeing, and healthy development.

Our Philosophy

Everything we do is centred around helping children become confident, capable, and independent learners.

We believe in:

- Building strong foundations
 - Personalised learning
 - Consistency and routine
 - Encouragement and accountability
 - Celebrating progress
 - Creating a calm, positive environment where every child feels supported
-

Daily Facilitation

Children attending our daily facilitation option benefit from:

- A consistent daily routine
 - Access to adaptive learning technology (where applicable)
 - Independent learning supported by facilitators
 - Individual guidance and encouragement
 - Opportunities to develop confidence and responsibility
 - A calm, welcoming environment
-

Enrichment

Learning extends beyond academics.

Our optional enrichment programmes encourage children to stay active, develop confidence, build resilience, and enjoy positive social interaction.

Sports

- Weekly sports sessions
- Movement and coordination
- Team participation
- Confidence building

Swimming

- Weekly swimming lessons
 - Heated pool access
 - Water confidence
 - Progressive swimming skill development
-

-

What to Bring

Technology

- Laptop or suitable learning device
- Headphones
- AUX cable

Stationery (Per Term)

- 3 Hard-cover notebooks
- 4 HB pencils
- Sharpener
- 2 Erasers
- Whiteboard markers (4-pack)
- Wind-up crayons
- 1 × 20-page flip file
- 2 Exam pads

Personal Items

- Packed lunch
- Water bottle
- Comfortable clothing suitable for learning and movement

Hygiene Contributions (Per Term)

- 4 Toilet rolls
 - 1 Pack of wet wipes
 - 1 Bottle of hand soap
-

Annual Calendar

Our daily facilitation option follows the South African public school calendar, including term breaks and public holidays.

An annual calendar will be shared with families before the start of each academic year.

Communication

Strong partnerships are built on open communication.

- Parent communication takes place via WhatsApp.
 - Progress updates are shared where appropriate.
 - Parents are encouraged to communicate openly with facilitators regarding their child's learning and wellbeing.
-

Important Information

- Families using our daily facilitation option should ensure all required learning materials are brought at the beginning of each term.
 - Learning resources may vary depending on the curriculum selected by each family.
 - A laptop or suitable learning device is required for children using adaptive learning technology.
 - Our structured routine provides consistency while allowing flexibility to support each child's individual learning needs.
-

Our Commitment

At Grace & Growth, we're committed to creating opportunities for every child to learn with confidence, develop independence, and build strong foundations for the future.

By partnering with families, schools, tutors, and educational support providers, we aim to make personalised learning more accessible through adaptive learning technology, meaningful support, and a genuine passion for helping children grow.

Together, we're building strong foundations for lifelong learning.
